49 YEARS OF DEFENCE AFFAIRS COVERAGE

A *Asian Defence Journal (ADJ)* is one of the world's leading international defence magazines. Founded in 1969 with an inaugural issue in the same year and published monthly since 1970, the concept of this tri-services and security magazine for the Asia-Pacific is characterised by a mix of articles on political, economic, security, and defence technology issues. Coverage also includes reports and previews of defence and security-related exhibitions and news on developments in the various defence and security forces. An important aspect that distinguishes **ADJ** from other international defence journals is that its editorial concept aims at publishing balanced and dedicated articles from an Asian perspective but with the international defence industry in mind. For 2019, **ADJ** will continue to provide such intelligence and keep watch on events of military significance throughout the Asia-Pacific. **ADJ** will maintain its Top Brass Interviews,

Country Reports, Industry News Section and Regional News Section. The year will also feature Country Defence Industry Reports and the CEO Interviews. Also featured will be the Company, Industry and Product Reports. **ADJ's** readers include high-level government and military leaders, officials of defence and security-related civilian government organisations, captains of industry and academicians. It is also widely distributed regionally to the various strategic research institutes, defence and security industry associations, chambers of commerce, professional bodies, representatives and regional offices of the global defence manufacturing and services industries, and the major regional media groups. In short, the advertisements published in **ADJ** will have a positive and potentially profitable impact in your company's promotional campaign.
